

Printers, Inks, Substrates & Flatbed Cutters

at Reklama Moscow 2010

The report that you have downloaded was available last year. Two of us from FLAAR sent two full days at Moscow gathering information on wide-format inkjet printers included in it.

Every year we at FLAAR reach out to learn about wide-format inkjet printer another part of the world. Last year it was the trade show in Ukraine, Earlier in 2010 we went to a Japanese trade show (very informative about how different Japan trade shows are from those in the rest of the world). And in late 2010 we went to Reklama Moscow. This and other trade show reports of previous years are being moved to our new section for people who wish to ask questions directly and personally to Dr Hellmuth. You can receive all these reports when you either Subscribe, or sign up for consulting. Every year I make an effort to visit new parts of the world to learn more about wide-format inkjet printers, in order to maintain the report lists for the **distributors**, **printshop owners and managers**, and **manufacturers** who write us for either a Subscription or for Consulting Services.

If you wish a Subscription, please look at FLAAR-Reports.org and then contact us at FrontDesk "at" FLAAR.org.

If you wish consulting services, download the consulting PDFs on any Consulting page on any FLAAR web site, or write us at FrontDesk "at" FLAAR.org

DGI solvent printer at Zenon booth.

HP Scitex LX600 latex printer.

Jenya taking notes of Mutoh-biolnk.

Seiko ColorPainter H-74s printing samples.
