

Ink Exhibitor list

APPPEXPO

2011

Introduction

The number of Chinese companies that are making ink is growing day by day, the ink industry is expanding more every time because every time there are new technology printers to print on almost anything.

I expected to find many more companies exhibiting their ink products at this tradeshow, might be just my first inaccuracies since the emergence of new brands is not very easy to have a database of all of them, i will check during the days of the trade show if they are really few or only I did not realize all because there are many brands that I'm not familiar with, but that surely i will investigate and will list during the tradeshow.

Also I will make a list of companies that have been presented in different countries this year, in a clear tabulation. This tabulation will be in the special comparative edition, which you can order for \$324.

The distribution of ink companies is in a descending order in relation to the sequence of the halls, that is ranging from W1 to W5 this last one, W5, has only 4 companies of inks as compared with HALL W1 where there are approximately 16 booths exhibiting inks for large format printers.

The following list show all the inks that we found at the last day of the setup of the booths, before the expo actually opens tomorrow. FLAAR comes two days before the show to start with the extensive research in this rapidly changing field such as the industry of large format printers you have to be in or your going to be out.

Alphabetical list

Atinks	W1 - 025
Alphachem	W2 - 711
Apollo inks	W2 - 042
Bcinks	W3
BPink	W1
Chenbang inkjet	W3
Chromo ink	W2
Durafos	W1 - 034
Enkle ink	W4
Fortuna	W2 -023
Fuji	W1 - 191 -581
Gateway	W4
Gunsjet ink - Digitex	W5
Hongsam	W3 - 369
Huanmei	W3
Huaxin-micolor ink	W2 – 180
Ink 2000	W2
Ink eco	W5 – 399
Inkbank	W2
Inkrank	W2 – 757
Intech - Blackjet	W1 – 411
InkTech	W1 – 045
Inkvay	W4
InkWin	W1 – 234
InxDigital	W1
Jetall	W3
Jetbest	W2 – 443
Jetga	W2
Myiak ink	W3 – 232
Nano ink	W3
Nazar	W1 – 264
Nova nano ink	w2
Nova inks co.	W3 – 210
Pengbo ink jet ink	W4
Richcolor	W4 – 647
Sam-ink	W1 – 229

Saven ink	W5
Sepiax chimigraf	W2
SJ -D5	W1 – 399
Spectra	W3
Sunjet	W1
Swe ink - InkTec	W2
Techmed ink jet	W5
Tonjou chemical industrial	W1
Weifang	W4
Wer	W2 -131
Xianglin ink - weixin digital	W3
Zeus CO	W1 - 769

List by hall

At inks	W1 - 025
BPink	W1
Durafos	W1 - 034

Gunsjet ink - Digitex	W5
Ink eco	W5 - 399
Saven ink	W5
Techmed ink jet	W5

Booth design

In relation to the design and size of the booths I must say they are much larger than it usual in tradeshow in U.S. or Europe, regularly the booth that cover an entire block are the companies of printers, but in this show i have been seen huge booths such as Sam ink, Jetbest, Hongsam and Inkwin, besides being much larger than they have very different and innovative designs.

Sam*Ink booth at Shanghai APPPEXPO 2011, on the last day of setup, before expo opens.

Hongsam booth at Shanghai APPPEXPO 2011, on the last day of setup, before expo opens.

Jetbest booth at Shanghai APPPEXPO 2011, on the last day of setup, before expo opens.
